WARRANTY AND SERVICES

Dear Customer,

In the event that your vehicle should present a problem attributable to a material or manufacturing fault during the validity period of this Warranty:

- If you need Roadside Assistance, get in touch with our Customer Care service by calling the number listed in this booklet. Customer Care will provide the information you need and assistance 24 hours a day.
- If your vehicle is in working condition, you can take it to the workshop of the Leapmotor Retailer that you bought it from, or to the Leapmotor Retailer which normally serves you, or to any other Leapmotor Retailer in the United Kingdom or abroad.
- The Leapmotor Retailer/Workshop will return the repaired vehicle in perfect condition totally free of charge for interventions covered by warranty.
- Always remember to present this warranty book to the Leapmotor Retailer assisting you; the Leapmotor Retailer will provide assistance free of charge according to the agreed procedures.

WARRANTY

The present commercial warranty offered is not conditional on the fact that (i) regular maintenance or (ii) repairs not covered by the present commercial warranty are performed by operators belonging to the Leapmotor Retailer.

Please note that in any case, the replacement of a part under warranty operations does not extend the overall duration of such warranty on your vehicle itself. The commercial warranty that covers the replaced parts expires on the original expiration date of such commercial warranty.

You are entitled by law, free of charge, towards the seller to the remedies in the event of a lack of conformity of your vehicle. The Commercial Warranty set out in this Warranty Booklet does not affect and does not prejudice in any case the Consumers' rights pursuant to relevant consumer protection local law.

WARRANTY ABROAD

Leapmotor warranties are applicable on condition that the vehicle remains registered and is driven in these countries:

Andorra, Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, France, Germany, Gibraltar, Greece, Hungary, Ireland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, Poland, Portugal, Romania, San Marino, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom, Vatican.

Leapmotor vehicle purchased in a country and moved to a different country

Your Leapmotor vehicle will benefit from the Leapmotor commercial warranty in the country where you are driving the car only if such country is approved as indicated in the table of approved countries in Leapmotor commercial warranty booklet accompanying your Leapmotor vehicle.

If the country where you are driving is not an approved country as per above, your car will not benefit from the Leapmotor commercial warranty. However, in exceptional cases and at its own discretion, even though the country where you are driving the car is not an approved country as per above, Leapmotor reserves the right to apply the Leapmotor commercial warranty of your Leapmotor vehicle.

In any case you move for relocation with your Leapmotor vehicle from the country of purchase to another country, please contact local Leapmotor or an official Leapmotor workshop/dealer in the country of relocation to register your Leapmotor vehicle in the Leapmotor database and systems.

VEHICLE WARRANTY

Your Leapmotor vehicle is warranted against manufacturing faults for a period of:

- 3 Years for T03 model, 4 years for other models or 60.000 Miles

whichever occurs first from the date of first registration.

Under this Warranty, the Leapmotor Retailer must repair components which are defective due to a manufacturing defect by replacing them with genuine spare parts or reconditioned parts free of charge. Operations under Warranty carried out by a Leapmotor Retailer include:

- Repair or replacement of the faulty component.
- Labor needed for the replacement or repair.
- Supply of consumable materials needed to carry out the repair under Warranty.

The Warranty does not cover faults or malfunctions caused, wholly or partly, or aggravated by:

- Modifications, repairs or disassembly of the vehicle not carried out by a Leapmotor Retailer.
- Failure to carry out the scheduled servicing operations [affecting the failed component] required by the Manufacturer and described in the User Manual.
- Modifications of the vehicle without the Manufacturer's prior authorization.
- Negligence, accidents, late reporting of faults, improper use, participation in sporting events, repairs with non-genuine spare parts (i.e. parts not supplied by the Manufacturer), exacerbation of the fault by continued driving or use.

The Warranty does not cover defects caused by normal wear and tears. In particular, it does not cover the replacement or top-up other liquids or replacement of the following components: filters, brake discs and pads, rear brake shoes and drums, shock absorbers, fuses, bulbs, windscreen wiper blades, tyres, etc.

The Warranty set out in this Warranty Booklet does not affect the Consumer's rights pursuant to relevant local law.

WARRANTY ON THE HIGH-VOLTAGE BATTERY

The high-voltage storage battery (hereinafter "high-voltage battery") is guaranteed, under the conditions set out below, depending on the version purchased by the Customer for a period of 8 years or 100,000 miles whichever occurs first, from the first registration date of the vehicle, in the scope of a conventional Warranty provided by the Manufacturer without prejudice to the fact that the period corresponding to the duration of the legal warranty is covered without any mileage limit. This Warranty obliges the Manufacturer, at no additional cost to the Customer, to put right any manufacturing defects by replacement with a new or certified reconditioned high-voltage battery, or by repair.

This Warranty will lapse in the event of failure to perform scheduled servicing operation (including checking the high-voltage battery) at the frequencies (yearly or maximum mileage) described in the User Manual and in accordance with the manufacturer's instructions and procedures.

Except for any work done during the period corresponding to the duration of the legal warranty in each relevant market from the registration date of the vehicle, any repair or replacement made under this Warranty is not required to restore the high-voltage battery to its original condition when the new vehicle was purchased but shall equip the vehicle with a battery that has at least the same capacity as the original battery before the fault was notified.

Load capacity of the high-voltage battery

The high-voltage battery has a limited operating duration. Its capacity to hold charge decreases with time and use, as for any rechargeable battery. The amount by which the battery capacity decreases varies with the outside conditions (ambient temperature, etc.) and usage conditions, e.g. driving habits and the high-voltage battery charging methods described in the User Manual. This is a distinguishing property of batteries that the customer accepts and acknowledges and is not considered to be a defect covered by this warranty unless the battery charge capacity drops below 80% before either 8 years or 100,000 miles, whichever occurs first, from the first registration date of the vehicle. Customers are invited to strictly follow the instructions in the User Manual on how to maximize the battery life and capacity.

This Warranty does not cover defects or malfunctions wholly or partly caused or compounded by:

- Failure to follow the correct charging procedures described in the User Manual.
- Using charging de; vices with technical specifications other than those described in the User Manual.
- Failure to follow the WARNING and PRECAUTION instructions given in the User Manual.
- Faults in other components after the:
  - ☐ 3 Years for T03 model, 4 years for other models or 60.000 Miles

  Whichever occurs first from the first registration date of the vehicle has expired.
- Modifications or disassembly of the vehicle not carried out by a Leapmotor Retailer or without prior consent of the Manufacturer.
- Repairs and/or scheduled servicing (including checking the high-voltage battery) carried out by a third party not according to the manufacturer's instructions and

procedures.

- Failure to carry out the scheduled servicing operations (including checking the high-voltage battery) prescribed in the User Manual, neglect, accidents, misuse, participation in sports competitions, repairs with non-genuine spare parts (i.e. Parts not supplied by the Manufacturer) or parts not of equivalent quality and compounding damage as a result of driving or using the car when evidently faulty.

The Warranty set out in this Warranty Booklet does not affect the Consumer's rights pursuant to relevant local law.

PAINTWORK WARRANTY

The vehicle is warranted against manufacturing defects of the paintwork for a period of:

- 3 Years for T03 model, 4 years for other models or 60.000 Miles

whichever occurs first from the date of first registration.

The Warranty provides for the total or partial repainting of the vehicle to the extent necessary and elimination of any ascertained fault according to the Manufacturer's standard conditions.

The Warranty does not cover:

- The results of damage to the protective surface, such as scrapes, scratches, abrasion, accidents and contact with chemicals.
- The results of causes unrelated to the production process or of inadequate maintenance.
- The results of repairs to the bodywork not performed by the Leapmotor Retailer.
- Chipping caused by stones or gravel.

We would ask you to consult the User Manual for instructions and important information on the preservation and correct maintenance of the bodywork.

PERFORATING RUST WARRANTY

The structural elements of the bodywork are warranted against perforations caused by rust, when it occurs from the inside out.

The Warranty provides for the repair and/or replacement of any original, bodywork structural element damaged by perforating rust and is valid for 8 years from date of first registration.

The Warranty does not cover defects caused, wholly or partly, or aggravated by the failure to carry out scheduled servicing required by the Manufacturer at the frequency Indicated in the User Manual.

Any faults found and not covered by Warranty will be recorded on the body inspection certificates when Schedule Servicing coupons are carried out.

The Perforating Rust Warranty does not cover:

- Deterioration due to negligence or failure to observe the manufacturer's requirements laid down in the User Manual relating to body maintenance or to external causes (accidents, chipping caused by stones or gravel) or to the installation of accessories that do not meet technical specifications or were not originally envisaged by the Manufacturer.
- Non-original body parts (i.e. not supplied by the Manufacturer) and the consequences of repairs to the body carried out outside of a Leapmotor Retailer.

Please always consult the User Manual for instructions and important information on the preservation and correct maintenance of the bodywork.

ROADSIDE ASSISTANCE

COMPLEMENTARY SERVICES

Leapmotor offers the support services (in the Countries and according to the methods shown below) during the entire Vehicle Warranty period:

- Mobile Workshop
- Towing
- Courtesy Vehicle
- Travel expenses
- Return home or onward journey
- Hotel Accommodation
- Repaired vehicle recovery
- Information service

ACCESS TO THE SERVICE AND DEFINITIONS

OPERATIVE INSTRUCTIONS

The Assistance Service for customers is guaranteed 24 hours a day, every day of the year.

If you require the services which are provided, you should dial the *Universal Telephone number 00 800 5327 0000; or dial +39 02 44412. 040.

*The Universal Toll-Free Number 00 800 5327 0000 is free for most calls from landline and mobile phones. Calls from certain mobile phones and public telephones in some European countries may be charged according to the rates applied by the telephone operator.

For customer in UK there is also a local toll-free number: 08000280970.

Each service must be authorised by the Leapmotor Assistance Service. If you cannot call the number, take the necessary actions and then inform the operator. In the latter case, expenses incurred will be reimbursed after providing appropriate receipts.

COUNTRIES WHERE THE SERVICE APPLIES

The service is available in the following countries: Albania, Andorra, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Czech Republic, Cyprus, Croatia, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Iceland, Ireland, Italy (including Vatican City), Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Malta, Moldova, Monaco, Netherlands, Norway, Poland, Portugal (including Azores and Madeira Islands), Romania, San Marino, Serbia and Montenegro, Slovakia, Slovenia, Spain (including Balearic Islands and Canary Islands), Sweden, Switzerland, Hungary, United Kingdom (including Channel Islands).

The Service is not available in countries that are at war.

START OF VALIDITY AND DURATION OF THE SERVICE

From 00:00 of the day of warranty start date for the entire Vehicle Warranty period.

SERVICE TERMS AND CONDITIONS

(HEREINAFTER "SERVICE")

DEFINITIONS

Service: The services offered for new Leapmotor vehicles in the conditions illustrated below.

Vehicle: All new Leapmotor vehicles sold in and registered with a British number plate. The service will remain valid if the vehicle is re-sold until its expiry date.

Assistance service for Leapmotor vehicles: An Operations Centre open 24 hours a day every day of the year answers calls from Customers and provides the assistance offered under the Service Leapmotor's expense.

Event: A Breakdown or Other Assisted Problem that allows the Beneficiary to access the Roadside Assistance service.

Customer/Beneficiary: The driver/user of the Vehicle concerned by the Event and, once specified, any other person aboard the Vehicle.

Breakdown: Any significant occurrence or happening which causes or requests (warning red light) the Vehicle to stop running or prevents it from being restarted or to be used in roadworthy conditions. Any defect of the vehicle that does not permit the usage on the road accordingly by local law / regulation.

Accident: An undesired Event, caused by error, negligence, failure to observe rules and regulations or unexpected event related to road traffic, which causes damage to your vehicle such to make use of the same in normal conditions impossible, as certified by the Leapmotor Retailer.

Other Assisted Problems: Circumstances arising during the Contractual Warranty period of the Vehicle that the Customer cannot solve, and that cause immobilisation of the Vehicle: flat 12V lead battery (not due to technical issue), flat or punctured tyre / tyres, and completely flat high-voltage battery. Only Roadside Assistance with Mobile Workshop and/or Towing to the closest Leapmotor Retailer is provided for the Events listed above.

If the high-voltage battery is completely flat, where possible, roadside assistance is provided through the mobile workshop in certain selected areas and, depending on where the car

has broken down, only to provide emergency charging on site this emergency charge, carried out for up to 30 (thirty) minutes, allows the Customer to continue the journey to the nearest charging point.

Where this mobile workshop service is not available, the Customer will be guaranteed the towing service to the nearest public charging station, if there is one within a range of 31 miles.

Alternatively, within 31 miles. radius from the stopping place, the Customer may request to be taken home, provided it is equipped with a charging station.

If there is no charging station within 31 miles. radius of the vehicle's location, the vehicle shall be towed to the nearest Leapmotor Retailer (if equipped with charging station) or Roadside assistance depot (if equipped with charging post).

Charging at public charging stations is at the Customer's expense. The service can be provided up to a maximum of the 3 (three) times per year.

Conditions for using the service

The Service can be used by the Customer only if the Event occurs during the validity period of the service and providing that the Vehicle has regularly undergone the Scheduled Service operations indicated and certified in the User Manual).

DESCRIPTION OF THE SERVICES

MOBILE WORKSHOP

If the vehicle is not in a condition to continue the journey because of a Breakdown, Accident or Other Assisted Problems, the Customer must contact Leapmotor Retailer, who will send an operator (if possible) to the place where the Vehicle is located to repair it.

If the Vehicle cannot be repaired on the spot, the operator will have the Vehicle towed to the nearest Leapmotor Retailer. The work will be carried out as specified in the "Other Assisted Problems" paragraph if the high-voltage battery is completely flat.

The Customer will be charged for the recharge needed to restart the engine, any spare parts used for the intervention and all other repairs not covered by Warranty.

TOWING

If, following a Breakdown, Accident or Other Assisted Problems, the Vehicle is damaged and consequently cannot move autonomously, the Customer will be provided with a rescue vehicle, paid for by the Service, to tow the Vehicle to the Leapmotor Retailer chosen by the Customer (if the

Vehicle has stopped at a maximum of 31 miles from the aforementioned retailer) or to the nearest Leapmotor Retailer.

The vehicle shall be towed to the Leapmotor Retailer chosen by the Customer (if the stop occurs within 31 miles of said Retailer) or to the nearest Leapmotor Retailer.

The Vehicle will be towed to another site identified by the rescue operator if the nearest Leapmotor Retailer is closed. The Customer is entitled in all cases to demand that the Vehicle be towed to the nearest Leapmotor Retailer.

The work will be carried out as specified in the "Other Assisted Problems" paragraph if the high-voltage battery is completely flat.

If the Vehicle is towed by a company who is entitled to the Service on an exclusive basis, the Customer, if required by the rescue operator, must pay for the service and then request reimbursement.

COURTESY VEHICLE

If the time needed to repair the vehicle following a Breakdown is longer than 2 hours as certified by the Leapmotor Retailer carrying out the repair will provide a courtesy car free of charge for a maximum of 4 working days plus any non-working days.

The repair times are set by the manufacturer on the basis of the Leapmotor flat rate car repair schedule.

In the event of an accident, the Leapmotor Retailer carrying out the repairs will provide a courtesy car, which can be used free of charge for a maximum period of 4 working days plus any non-working days, only if the vehicle is damaged in such a way that it cannot move autonomously or is not safe for the occupants; this service will be provided only after the vehicle has been towed by the Leapmotor Retailer.

The Leapmotor Retailer will provide the Customer with one of their courtesy cars; if none are available, the Leapmotor Retailer may provide a hire car: in this case, the Customer must use it in accordance with the terms and conditions of the car hire company used.

In case of presence of children inside the vehicle, if required by the Customer or foreseen by the law, the Provider must proactively propose and assure that children seats are provided with the vehicle offered to the Customer. In case of young drivers or additional driver presence, the service must be provided without any additional fee.

If the Customer decides to have scheduled and/or routine servicing operations carried out on the Vehicle at the same time as the repairs relating to the breakdown, the Customer

will bear any car hire costs which are incurred because of the increased amount of time that the vehicle is off the road.

Disabled drivers: If the Customer has a disability, for which the Vehicle has been adapted specifically, he/she can make use of an appropriate courtesy vehicle for a maximum of ten days.

Should the courtesy vehicle on offer not meet his/her needs, a driver will be provided for a maximum of ten day.

TRAVEL EXPENSES

The service is not provided in the case of Vehicle immobility for scheduled servicing operations required by Leapmotor, fitting of accessories and repairs consequent to recall campaigns carried out by the Manufacturer. Following a Breakdown or Accident the Customer and any passengers, if authorised by the Leapmotor Assistance Service, may use a taxi (or other means of transport) up to a maximum of £ 100 per Event, regardless of the number of persons assisted. This amount will later be reimbursed. In order to obtain reimbursement, the Customer must send:

a) Dated original receipts for the taxi (or other means of transport);

b) Copy of Vehicle acceptance document indicating reception date and copy of repair invoice, both issued by the Leapmotor Retailer.

he above amounts will be reimbursed once the documentation listed above has been sent to the address specified in the "REIMBURSEMENT OF EXPENSES PAID BY THE CUSTOMER" paragraph.

For Compensation, the date of the receipt for the taxi (or other means of transport) must be between the date shown on the Vehicle acceptance document (completed by a Leapmotor Retailer and the date of the Vehicle repair invoice.

RETURN HOME OR ONWARD JOURNEY

If, following a Breakdown or Accident the Vehicle is immobilised more than 62 miles from the Customer's place of residence and the Vehicle cannot be repaired within the day in which the Event occurred, Leapmotor Assistance Service will organise the return of the Customer and passengers to their home or the continuation of their journey by train (first class), or by bus (comfort class), or if the distance is greater than 312 miles by aeroplane (economy class) and be charged for all expenses.

HOTEL ACCOMMODATION

If, following a Breakdown or Accident the Vehicle is

immobilised more than 62 miles from the Customer's place of residence and the Vehicle cannot be repaired within the day in which the Event occurred, a stay in a local four-star hotel will be organised for the Customer and passengers.

Leapmotor Assistance Service will pay for board and breakfast, for up to 4 nights and £ 850 for a maximum of the same number of permitted passengers stated in the Vehicle's registration document.

UNREPAIRED VEHICLE RECOVERY

If, following a Breakdown, the Vehicle is immobilised and the time needed to repair it is longer than five days (as certified by the Leapmotor Dealership), Leapmotor Assistance shall bear every cost for repatriating the unrepaired Vehicle to the Customer’ s place of residence or to the Leapmotor Dealership nearest to the Customer’ s place of residence.

INFORMATION SERVICE

All Customers can receive, upon demand, information about shifts and opening times of Leapmotor Retailer. The service is open 24 hours a day, every day of the year.

REIMBURSEMENT OF EXPENSES PAID BY THE CUSTOMER

In order to be reimbursed for expenses incurred, the Customer must send the original (not copies) of receipts or equivalent documents with a brief description of the event, indicating whether the expense was authorised and supplying the Leapmotor number provided by the Leapmotor Assistance Service, the vehicle data and the personal data of who the reimbursement should be made out to, with bank account information to speed up the bank transfer. All the above must be sent to the addresses specified directly by the Leapmotor Assistance Call Centre.

EXEMPTION FROM THE SERVICE

The following exemptions additionally apply, notwithstanding the conditions and specific exclusions of each service:

1. Services are not available following: motor racing, rallies, speed or duration tests, practice runs, wars, riots, uprising, mass political demonstrations, pillage, strike, used for military purposes or acts of terrorism, earthquake damage, extraordinary atmospheric phenomena, nuclear transformation phenomena or radiation caused by artificial acceleration of atomic particles, deliberate damage, vandalism or participation in a criminal act or offence, any damage caused by a trailer, load or other external influences.

2. No service providers are liable for damage caused by the intervention of public authorities in the country where the service is supplied or consequent to any other fortuitous, unexpected circumstance.
3. Ambulances, vehicles used by public transportation companies (including renting), vehicles sold to official bodies such as the Police, customs and fire services or other specific mission to provide government services are only eligible for Mobile Workshop and Towing services. If the high-voltage battery is completely flat, the work shall be carried out as specified in the "Other Assisted Problems" paragraph.
4. A Customer choosing not to use one or more services is not entitled to compensation or alternative services of any kind by way of compensation.
5. Costs borne which are not related to the occurrence of the Event (food, lodging, taxi, fuel, etc.) shall not be refunded.
6. Scheduled servicing activities are not included in the Service.
7. Vehicles in unsafe conditions or those maintained without following the Manufacturer's instructions are excluded from the service.
8. Vehicles sold without warranty.

ASSISTANCE SERVICES

SERVICE PACT

Dear Customer, Reference Service Network personnel:

- Are trained by Leapmotor.
- Use all the diagnosis equipment required by Leapmotor.
- Guarantee disposal of used oil and polluting materials in compliance with the regulations in force.
- Apply clear and competitive fees.
- Provide immediate quotes on the cost of each maintenance operation (Transparent Prices).
- Operate in line with operating cycles and intervention times established by Leapmotor.
- And offer a service called SERVICE PACT.

The Service Pact is a collection of Service Agreement general terms and conditions between the Retailer and you. It guarantees the transparency of all services you request and the Retailer has carried out, whether under warranty or not.

Reception of the vehicle and quote

When your vehicle is brought in for Servicing, maintenance or repair work, the Workshop will issue an acceptance note with a list of the problems reported or works requested and, upon request, a written quote.

In the event of operations not covered by the Warranty, the Workshop will inform your before starting each job.

Clarity of repair requests

The repair must correspond to the problems reported.

The Workshop will always ask you for authorisation before carrying out additional repairs deemed necessary and/or appropriate.

Respect of delivery times

Respecting delivery times means respecting you.

SCHEDULED SERVICING

SERVICE COUPONS

All vehicles require regular servicing.

Therefore, Leapmotor has drawn up a Scheduled Servicing Operations Plan for each model/version to ensure excellent running conditions and efficiency.

Compliance with the Scheduled Servicing Operations Plan instructions means optimising your vehicle's performance and fuel consumption and, during its life, ensures respect of laws and regulations on emissions and pollution, keeping it in suitable conditions to pass the periodic inspections required by law.

Above all, complying with the Scheduled Ser vicing Operations Plan instructions will avoid causing Warranty rights to potentially lapse subsequent to failure to carry out the operations required by the Manufacturer illustrated in the User Manual.

These operations are at your expense. Make sure that the Workshop completes the corresponding Servicing Schedule coupons on the following pages.

Keep receipts certifying payment of the servicing concerned. This document must contain details on genuine or equivalent spare parts, consumable material, operations carried out and labour used.

It is important to remember that the Vehicle Warranty does not cover faults or malfunctions caused, wholly or partly, or aggravated by the failure to carry out or incorrect execution of servicing required by the Manufacturer.

SERVICE STAMPS

Check the frequencies and operations in the User Manual supplied with the vehicle, showing the type of operation to be carried out (coupon or oil change, if separate) and fill in all other applicable fields.
